

PANIC LUDIC

Cie Pol & Freddy

TECHNICAL RIDER

Technical contact

Sander De Cuyper - +32 487544869 - info@panicludic.be

General informations

- ◇ The team consists of 2 people: 1 actor, 1 technician
- ◇ Duration of the show: 45 minutes
- ◇ Number of seats: 160, additional audience members can stand behind the bleachers
- ◇ Set-up time: 4 hours
- ◇ Take-down time: 2 hours
- ◇ The show can be performed twice a day, with a minimum interval of 2 hours between performances

The company provides

- ◇ Set, stands (see plan), backstage tent (see plan), sound system

The organisation provides

- ◇ Electricity: one 220V/16A outlet
- ◇ Performance area (see plan): circle with a diameter of 6 m
- ◇ Total area with grandstand: circle with a diameter of 14 m (see plan)
- ◇ Clear height: 4 m
- ◇ Ground: **grass**
- ◇ The show can be performed in a field, meadow, garden, park, etc.
- ◇ Before the show begins, the troupe mows the grass to a height of 5 cm
- ◇ In addition, 4 objects are buried at a depth of 40 cm. After the show, the holes are filled in, the patches of grass replaced, and the ground restored as much as possible
- ◇ The organization will check whether there are any pipes or cables running under the playing field and, if so, where and at what depth they are located

- ◇ If it is not possible to load and unload in the immediate vicinity of the playing field, we will ask for the help of two volunteers and a push or pull cart
- ◇ If the performance takes place at dusk or at night, the organization will provide appropriate and sufficient lighting: four 4-meter wind-ups, each with four PAR 1000W lights on a dimmer. Similar lighting with LED lamps is also possible

Other requirements

- ◇ A parking space near the performance area for a Renault Master van (license plate number 1 ARM 034)
- ◇ Snacks during setup, a meal after dismantling (no special diets) or per diem
- ◇ In case of multiple performance days, early setup or dismantling, and long distances, we request accommodation: two single rooms.

PLAN
